Plymouth Housing Group Direct Service Staff are United for Standards that Support a Stable Workforce

We know we need to stick together to get a fair contract. We also know a contract that meets the needs of the direct service staff will be good for our clients and good for the organization. This means a wage scale that guarantees each full time employee an annual step increase *and* cost of living increase each year, while maintaining our current standards for medical benefits, PTO, retirement, rent for live-in employees and more.

By signing this pledge in support of our Bargaining Goals, I am joining with my coworkers to stand up and ask Management to come back to the table and meaningfully discuss the important outstanding issues with our team and work toward a resolution. By signing I also authorize the use of my name in future updates confirming my support of our Bargaining Goals.
