March 2016

We Don't Want To – But We Will If We Have To!

Unless we reach an agreement on a new Contract that addresses our priorities, we will informational picket on **Thursday, March 31** to make our concerns public. Federal law protects our right to picket. This is not a strike, we will picket during our non-work time—on a break, lunch or before or after work.

I am ready to Info Picket, if we have not reached agreement:
